Meeting Notice

On Thursday, May 1st (2008), a meeting to review upgrades and changes to the Saratoga County EMS radio system will be held at the Fire Training Center in Ballston Spa beginning at 7:00 PM. All ambulance agencies in Saratoga County are requested to send at least one representative to this very important informational meeting. Any interested EMS providers are also welcome and encouraged to attend.

Office of Emergency Services Director Paul Lent and County EMS Coordinator Mike McEvoy will provide an overview of current and future upgrades and changes to the County EMS radio system. Topics to be covered will include the migration of EMS dispatch from 155.925 to the present Ops frequency (154.355), planned to occur later this year; purchase of new pagers and radio equipment consistent with upcoming narrow banding of public safety radio frequencies; dispatch changes including crew confirmation protocols; and eventual migration to an entirely new radio system.

Please make plans now to have your ambulance agency represented at this meeting on May 1. Contact EMS Coordinator Mike McEvoy with any questions (mcevoymike@aol.com).
